The dual-benefit stimulus: €100 bn for growth and sustainability

Figure 4

Construction industry (€25 bn)		German contribution to EU recovery (€20 bn)			Industry (€15 bn)		
	Scrapping premium for oil heating systems	Investment capital funds for local infrastructures			Rapidly mobilise investment in efficiency	Build sustainable n industrial structure	
Introduce serial energy efficiency retrofits		hergy efficiency retrofits for				Enter the hyd	drogen economy
federally owned buildings		Mobility (€15 bn)		Energy (€3 bn + eliminate blockades)		Acceleration of planning process	
More spending power (€22 bn)			Promote demand for electric vehicles and vehicle efficiency	Promote offer- ings for electric vehicles and new mobility		e F	and education Accelerate planning and approval processes
				services	Revive the wi and strengthe solar industry	,	Introduce education
Reduce electricity bills by 20 % for households and 25 % for businesses			- Promote public transit		Make grids more intelligent		and training programmes in future technologies.

Agora Energiewende, 2020
