Clean Industry Package

Energy Union Governance Framework

11 POLICY PROPOSALS

- → Hydrogen investment support policy-framework
- → Robust clean hydrogen sustainability criteria
- → Industrial energy & CO₂ infrastructure planning & financing

RELEVANT LEGISLATIVE INSTRUMENTS

- → Renewable Energy Directive Clean H₂ enabling Framework enabling clean H2
- → Hydrogen Sustainability Criteria Regulation (under REDII)
- → Energy Union Governance Regulation & TEN-E Regulation

- → Carbon contracts-for-difference (CCfD)
- → Capital de-risking instruments for unproven technologies
- → Climate neutral production standards
- → Reformed anti-carbon leakage system

- → New CCfD enabling policies (state aid; criteria; EU funding)
- → Innovation Fund Regulation (ETS Directive)
- → Industrial Emissions Directive & eco-labelling
- → EU ETS Directive: State Aid Guidelines (2021): new BCA framework

→ Climate surcharge on CO₂-intensive final products

→ Requirements & labels for embedded CO₂

- in intermediate & final products
- → Public procurement requirements
- → Recycling quality targets & end-of-life obligations
- → Climate surcharge on basic materials-intensive products → Energy Performance in Buildings Directive & eco-design
- → Waste Framework Directive (End-of-Life Vehicles Regulation, CDW*)
- → Public Procurement Directive

Agora Energiewende, 2020

Note: CDW stands for Construction and Demolition Waste period.
